◇ PROFILE

Social Impact Builder and Youth Development Researcher working at the intersection of technology, international development, and global public policy. Founder of Chianya — a youth-focused digital wellbeing initiative addressing barriers to mental health access through human-centered technology. My work explores how accessible digital solutions can contribute to youth wellbeing, community support, and inclusive development, aligned with global frameworks such as the WHO Mental Health Action Plan and the UN Sustainable Development Goals.

◇ EXPERIENCE

Social Impact Program Lead & Founder — Chianya | 2025–Present Founder-led youth wellbeing initiative addressing barriers to mental health support including stigma, accessibility, and limited access to care. Designed and developed a free, anonymous digital wellbeing platform for young people aged 16–28, inspired by WHO community-based mental health care principles and SDG 3. Led program design, community-focused solution development, user experience strategy, technology implementation, and impact documentation. Developed crisis support pathways connecting users with real-world support resources. Reached early users after launch without paid advertising.

Skills: Youth Development · Community Outreach · Social Impact · SDG Implementation · Mental Health Access · Program Design · Digital Inclusion · Public Policy

Full Stack Developer Trainee — SSC/Skill India | May 2024 – May 2025 | Grade: A+ Government-certified 12-month full-stack development program. Built web applications using React, Node.js, Express.js, and MongoDB. Applied software development skills toward social impact-oriented digital solutions.

AI/ML Program — YBI Foundation | July – Sept 2024 Worked with supervised and unsupervised machine learning models using Python and scikit-learn. Learned data preprocessing, model evaluation, and applied ML concepts to practical datasets

◇ EDUCATION

Bachelor of Technology (B.Tech) — Computer Science and Engineering

Uttarakhand Technical University, Dehradun | Nov 2021 – Aug 2025

Additional self-directed learning: International development, UN frameworks, SDGs, and global public policy.

◇ TECHNICAL SKILLS

JavaScript, SQL | React.js, Three.js, Node.js, Express.js, MongoDB, Groq AI | Git, Vercel, Render | PWA

◇ SOCIAL IMPACT PROJECTS

Chianya — Forest of Consciousness | chianya.vercel.app_|github.com/Anchalbisht10/Chianya | 2025–Present Founder and Developer

—Community-based digital wellbeing platform addressing the gap between young people needing emotional support and accessing it. Provides anonymous wellbeing support, AI-assisted reflection, and crisis pathways. Built using React, Three.js, Node.js, MongoDB, and AI technologies. | **SDG 3 · SDG 4 · SDG 10**

KAIROS — First-Generation Girls Scholarship Platform | *Active development since early 2026* Education access initiative supporting first-generation college girls from Tier 2/3 cities by reducing information gaps around scholarships, higher education pathways, and career guidance through accessible digital tools. | **SDG 4 · SDG 5**

OjasVyn — Healthcare Access & Equity Platform | *Active development since early 2026* Digital healthcare access initiative exploring solutions to reduce inequalities between communities and healthcare systems through bilingual Hindi/English resources and AI-assisted guidance. | **SDG 3 · SDG 10**

◇ CERTIFICATIONS — YOUTH, WELLBEING & GLOBAL DEVELOPMENT

Education in Emergencies Global Course — UNICEF (June 2026)

UNICEF Gender Equality Core Commitments for Children in Humanitarian Action — UNICEF (June 2026)

Adolescent Girls' Agency, Safety, and Wellbeing — UNICEF (June 2026)

Foundations of Gender-Transformative Approaches — UNICEF (June 2026)

Child Protection Systems Strengthening — UNICEF (June 2026)

Harnessing the Power of Data to End Harmful Practices — UNICEF (May 2026)

Making Decentralization Work for Children — UNICEF (May 2026)

Words Matter: Communicating with Children So They Thrive — FutureLearn (May 2026)

Psychology of Wellbeing — University of Aberdeen (May 2026)

◇ LANGUAGES

English (Professional) | Hindi (Native) | French (A2, actively learning)

◇ ADDITIONAL INITIATIVES & RESEARCH CONCEPTS

PAHVYAARA — Cultural Heritage Revival Platform | Concept Development | 2026–Present | Exploring digital approaches to preserve cultural stories, oral traditions, languages, and community knowledge. | **SDG 4 · SDG 11 · SDG 16**

Aryvena / MonsoonTrack — Climate & Water Risk Platform | Concept Development | 2026–Present | Exploring climate-driven water risks, changing monsoon patterns, and community resilience through digital solutions. | **SDG 6 · SDG 13 · SDG 15**
